

Kalsnet (KNet) Consulting

2026 Professional Services Price Book

Cybersecurity • AI/ML • API Security • Enterprise Technology • Knowledge Graphs

Positioning & Pricing Philosophy

KNet provides senior-level, outcome-focused consulting to government, defense, technology and commercial organizations. The rates below are intentionally competitive for a specialized boutique consultancy while recognizing the value of deep enterprise and federal technology experience.

2026 Market Reference: Current U.S. consulting benchmarks commonly place senior specialists around \$175–\$350+ per hour. GSA pricing data for Cyber Security Engineer labor categories shows a \$153.29 median and \$196.09 75th percentile for awarded ceiling rates as of June 22, 2026. KNet's standard senior advisory rate of \$225/hour is positioned competitively within the specialist market.

1. Standard Hourly Services

Service	Scope	KNet Rate
Executive Technology & Cybersecurity Services	Senior advisory, architecture review, technology roadmaps, executive briefings	\$225/hr
Cybersecurity Strategy & Architecture	Cyber defense strategy, zero-trust concepts, security architecture and gap assessments	\$225/hr
API Security & API Management	API security assessments, gateway strategy, lifecycle controls, threat modeling	\$225/hr
AI / ML for Cybersecurity	AI/ML use cases, detection concepts, agentic-AI design, model/solution evaluation	\$225/hr
Agentic AI & LLM Solutions	AI-agent architecture, RAG, Graph RAG, workflow automation, enterprise LLM strategy	\$225/hr
Data, Knowledge Graph & Ontology	Taxonomy-to-ontology design, graph database strategy, knowledge modeling	\$200/hr
Cyber Threat Detection & Analytics	SIEM/SOAR concepts, anomaly detection, threat analytics, data engineering	\$200/hr
Cloud, Edge & Emerging Technology	Cloud/edge strategy, IoT, serverless, emerging technology assessments	\$200/hr
Software / Systems Engineering Advisory	Architecture, integration, Python/Java/SQL solution design and technical reviews	\$175/hr
Training & Technical Workshops	Cybersecurity, AI/ML, APIs, architecture, data/knowledge graphs; customized workshops	\$175/hr
Technical Writing & Documentation	Architecture documents, technical assessments, SOPs, white papers and briefings	\$150/hr

2. Fixed-Price Project Packages

Engagement	Typical Duration	Planning Price
Cybersecurity / Technology Assessment	2–4 weeks	\$5,000–\$12,500
API Security Assessment	2–4 weeks	\$6,500–\$15,000
AI/ML Use-Case & Roadmap Study	2–4 weeks	\$5,000–\$12,500
Agentic AI / RAG Proof of Concept	4–8 weeks	\$12,500–\$30,000
Graph Database / Knowledge Graph PoC	4–8 weeks	\$10,000–\$25,000
Cybersecurity AI Prototype	6–10 weeks	\$15,000–\$35,000

Engagement	Typical Duration	Planning Price
Architecture Review & Technical Roadmap	1–3 weeks	\$3,500–\$9,500

Fixed-price packages are planning ranges. Final pricing is based on scope, data access, environments, deliverables, travel, security requirements and schedule.

3. Monthly Advisory Retainers

Plan	Monthly Fee	Effective Rate
Advisory — 10 hours/month	\$2,000/month	\$200/hr effective
Advisory — 20 hours/month	\$3,800/month	\$190/hr effective
Strategic SME — 40 hours/month	\$7,000/month	\$175/hr effective

4. Commercial Terms

- Minimum hourly engagement: 2 hours.
- Billing: monthly in arrears unless otherwise stated in the Statement of Work.
- Fixed-price projects: 40% kickoff, 40% at agreed milestone, 20% on final delivery (unless SOW specifies otherwise).
- Retainers: paid monthly in advance; unused hours may not roll over unless stated in the SOW.
- Travel: reasonable pre-approved travel and lodging billed at cost; travel time is not normally billed unless agreed in advance.
- Expedited / after-hours work: 1.25× standard rate with prior client approval.
- Federal contracting: rates can be mapped to the applicable contract vehicle, labor category and task order requirements.

5. Typical Deliverables

Architecture assessments • cybersecurity roadmaps • API security assessments • AI/ML use-case studies • agentic-AI/RAG prototypes • knowledge graphs/ontology models • technical architecture diagrams • executive briefings • training/workshops • technical documentation.

6. Important Note

This price book is a commercial planning document and not a binding quotation. A written Statement of Work (SOW) will define final scope, assumptions, deliverables, schedule, acceptance criteria and price.
